CODESTINE

Software, websites and digital growth.

CODESTINE connects software engineering, user experience and digital marketing around business requirements. Based in Cairo, we help companies in Egypt and the Gulf plan their next digital project.

What we can help you build

Corporate websites

Responsive company websites with clear service journeys, bilingual content, CMS planning and technical SEO.

Custom software and platforms

Business workflows, user roles, portals and integrations, delivered against an agreed scope.

E-commerce

Product discovery, checkout and payment or operational integration planning.

Digital growth

SEO, content and campaigns connected to audience needs and a measurement plan.

Maintenance and support

A defined arrangement for updates, fixes and ongoing improvements.

Work worth exploring.

Selected public project examples. Visit the portfolio for screenshots, audience information and visible features. No performance figures or client testimonials are implied.

TAQA Arabia

Corporate and investor information across Gas, Power, Petroleum and Water divisions.

https://taqa.com.eg/

Misbah Hub

Academy operations connecting administrators, instructors, students and families.

https://misbah-hub.com/

Yaseen El Hawary Driving Academy

Driving lessons, course information and learning resources for Cairo learners.

https://yaseenelhawary.com/

A clear path from brief to launch

Understand the goal and users. Agree scope, priorities and responsibilities. Design, build and test. Prepare launch, handover and the next improvements. Timing, investment, code ownership and support terms are defined in the project agreement.
